

# INSULATED 10FT, 20FT & 40FT STORAGE CONTAINERS

At DC-Supply, we build specially designed 10ft, 20ft, and 40ft ISO insulated storage containers.

## DCS 2064 interior measurements

Length	Width	Height
5675 mm	2152 mm	2276 mm

A storage container is a flexible solution to the lack of space for both short and long periods of time. The container is easy to protect against theft by renting or purchasing one of our locking systems. An insulated storage container ensures that your products are safe and dry. It is suitable for the storage of moisture and temperature sensitive products. The container is practical, easy to move, and can be combined with other containers if more space is needed.

- Suitable for a workshop or storage of temperature sensitive goods
- Can be delivered with specially designed shelves
- Optional installation of light fixture, fans, electric radiators
