

OFFSHORE NORSOK CONTAINERS 10 & 14 FT

10 and 14 ft Norsok offshore containers with CSC-approval.

10 fods standard ståcontainer

The Norsok offshore container is stronger and thicker than a standard container, and is intended to defy harsh conditions. The Norske Veritas qualify for the (DNV): Certification Note 2.7-1, and meets new requirements by having the doors secured with double security, such as lock fittings and a fireman's hook.

The Norsok offshore container is available with either wooden or steel flooring. The Norsok offshore container is used primarily to transport goods, which may include conventional cargo containers, bulk containers, special containers, equipment, and containers for gas cylinders.

Available both used and new - new containers can be delivered with your logo.
