

CHANGING ROOM CONTAINER WITH CLADDING

Custom container solution for P/F Luna Lakseopdræt, Faeroe Islands.

In connection with salmon rearing on the Faroe Islands, DC-Supply A/S designed and produced four interconnected 20ft changing room containers with cladding. These combined containers include toilets, showers, and changing areas, as well as a canteen, storage room, and laboratory. The containers are built with washable ceilings, walls, and floors. The containers were delivered to P/F Luna Lakseopdræt on the Faroe Islands, to whom DC-Supply A/S had previously provided a mobile salmon slaughterhouse with staff quarters.
