

## CUSTOM SOUVENIR SHOP CONTAINER SOLUTION IN GREENLAND

For Albatros Travel's new souvenir shop located in Ilulissat, Greenland - DC-Supply delivered a custom container solution built from four 20 ft containers.

On top of the souvenir shop, a roof terrace has been established. From here, you can really enjoy the beautiful views of Ilulissat Icefjord and Disko Bay's icebergs. With wood cladding on the outside of the containers - the building blends in nicely, with other buildings in the area. Likewise, the exterior steel staircase solution has matching wooden railings also, complementing the cladding.

Interior walls and ceilings of the souvenir shop are plywood lined, light fixtures are also mounted in the ceiling. With the furnishing done by Albatros Travel, the end result is a cozy and welcoming souvenir shop - ready to receive interested guests.

### Experience and expertise in container solutions for Greenland

DC-Supply has built several custom container solutions as souvenir shops as we have built many other solutions to function as sale booths, shops etc. Additionally, we have extensive experience delivering both standard containers, and custom container solutions to almost anywhere in Greenland. Over the years, we have built up a very high level of expertise establishing container solutions adapted to the sometimes harsh Greenlandic environment especially with regards to the implementation of sewers and electricity supply.

If you would like any further information on our solutions delivered to Greenland, please contact our experienced staff who are ready to help and advise about the many options available as custom container solutions delivered to Greenland.

Give us a call or send an email if you have any questions, or would like advice. We are ready to help.
