

RESIDENTIAL CONTAINER – 2 ROOMS WITH TOILET AND SHOWER

DCS 2032

A residential container with two rooms is a flexible solution if you are in need of temporary accommodation because your current house is under construction or being renovated.

Residential containers ensure that you have a comfortable stay with enough space and private surroundings for two people. The container provides full access from a side entrance. It is also easy to secure from theft, can be combined with other containers, and is easy to move to meet your requirements. Suitable for offices, residencies, etc.

Insulated 20ft container with two living rooms and common toilet/shower

Window in each room and entrance on the side

Installation includes two 220V power outlets in every room and one in the hallway, and electric heaters in every room

Steel-rimmed grid in the doors and windows, and bright hallway with pane glass door

Supplied with 110mm drain and 1/2" water connection, electrical connection, 32A CEE intake, and 32A CEE outlet for series connection

Give us a call or send an email if you have any questions, or would like advice. We are ready to help.
